

1.	1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING				
1.1	Product identifier: SEA BUCKTHORN EXTRACT				
1.2	Relevant identified uses of the substance or mixture and uses advised against: Cosmetics raw material				
1.3	Details of the supplier of the safety data sheet: ACCESS NATURALS Petra Yialou, 190 04 SPATA, ATHENS, GREECE Tel.: (+30) 210.8104206 Web: <u>www.access-naturals.gr</u> , e-mail: <u>info@access-naturals.gr</u>				
1.4	Emergency telephone number:Hellenic Poison Centre Tel.:(+30) 210.7793777European Emergency Tel.:112				
	Supplier's emergency telephone number:Calls from 08:00 to 16:00:(+30) 210.8104206				
2.	HAZARDS IDENTIFICATION				
2.1	1 Classification of the substance or mixture: The product is not classified as hazardous pursuant to the provisions set forth in EC Regulation 1272/2008 (CLP) (and subsequent amendments and supplements).				
2.2	Label elements: This product is not subject to hazard labeling pursuant to EC Regulation 1272/2008 (CLP) and subsequent amendments and supplements.				
	Hazard pictograms: Not applicable				
	Signal words: Not applicable				
	Hazard statements: Not applicable				
	Precautionary statements: Not applicable				
2.3	Other hazards: On the basis of available data, the product does not contain any PBT or vPvB in percentage greater than 0.1%.				
3.	COMPOSITION/INFORMATION ON INGREDIENTS				
3.1	Substances: Information not relevant.				
3.2	8.2 Mixtures: The product does not contain substances classified as hazardous to human health or the environment in accordance with the provisions of Regulation (EU) 1272/2008 (CLP) (and subsequent conversions and adaptations) in such quantities as to require their declaration.				
	lentification Conc. %. Classification 1272/2008 (CLP)

4. FIRST AID MEASURES

4.1 Description of first aid measures:

Not specifically necessary. Observance of good industrial hygiene is recommended.

- **4.2 Most important symptoms and effects, both acute and delayed:** Specific information on symptoms and effects caused by the product are unknown.
- **4.3** Indication of any immediate medical attention and special treatment needed: Information not available.

5. FIREFIGHTING MEASURES

5.1 Extinguishing media:

SUITABLE EXTINGUISHING EQUIPMENT The extinguishing equipment should be of the conventional kind: carbon dioxide, foam, powder and water spray. UNSUITABLE EXTINGUISHING EQUIPMENT None in particular.

5.2 Special hazards arising from the substance or mixture: HAZARDS CAUSED BY EXPOSURE IN THE EVENT OF FIRE Do not breathe combustion products.

5.3 Advice for firefighters:

GENERAL INFORMATION

Use jets of water to cool the containers to prevent product decomposition and the development of substances potentially hazardous for health. Always wear full fire prevention gear. Collect extinguishing water to prevent it from draining into the sewer system. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations.

<u>EQUIPMENT</u>

Normal firefighting clothing i.e. fire kit (EN 469), gloves (EN 659) and boots (HO specification A29 or A30) in combination with self-contained open circuit positive pressure compressed air breathing apparatus (EN 137).

6.	ACCIDENTAL RELEASE MEASURES									
6.1		•	protective equipmen	t and em	nergency pro	ocedures:	:			
			ere is no hazard. ve equipment (includi	ng norso	nal protecti	ve equinn	nont rofe	orred to under	section 8 of	the safety
Wear suitable protective equipment (including personal protective equipment referred to under section 8 of the safe data sheet) to prevent any contamination of skin, eyes and personal clothing. These indications apply for both proce										
	staff and those involved in emergency procedures.									
6.2	2 Environmental precautions:									
	The product must not penetrate the sewer system or come into contact with surface water or ground water.									
6.3	3 Methods and material for containment and cleaning up: Collect the leaked product into a suitable container. If the product is flammable, use explosion-proof equipment. Evaluate the compatibility of the container to be used, by checking section 10. Absorb the remainder with inert absorbent material. Make sure the leakage site is well aired. Contaminated material should be disposed of in compliance with the provisions set forth in section 13.									
6.4		ce to other se rmation on pe	ctions: rsonal protection and	disposal	is given in s	sections 8	and 13.

Sea Buckthorn Extract

8.2	Exposure controls:						
0.2	•	res usually applied when handling chemical substances.					
8.2.1	Eye protection:						
	Wear airtight protective goggle	es (see standard EN 166).					
8.2.2	Skin protection:						
	Hand protection:						
	Protect hands with category I work gloves (see standard EN 374). The following should be considered						
	when choosing work glove material: compatibility, degradation, failure time and permeability. The						
	work gloves resistance to chemical agents should be checked before use, as it can be unpredictable.						
	The gloves wear time depends on the duration and type of use.						
	Other skin protection.						
	<u>Other skin protection:</u> Wear category I professional long-sleeved overalls and safety footwear (see Directive 89/686/EEC and standard EN ISO						
		and water after removing protective clothing.					
	20344). Wash body with soap	and water after removing protective clothing.					
8.2.3	Respiratory protection:						
		d otherwise in the chemical risk assessment.					
8.2.4	Environmental exposure contro	ols:					
	The emissions generated by m	anufacturing processes, including those generated by ventilation equipment, should be					
	checked to ensure compliance	with environmental standards.					
9.	PHYSICAL AND CHEMICAL PROP	ERTIES

Sea Buckthorn Extract

1907/2006 (REACH) Article 31, 2015/830/EU and 1272/2008/EC (CLP) Date 01.11.2018

- TLV CEILING: Concentration that should not be exceeded during any time of occupational exposure.
- TWA STEL: Short-term exposure limit
- TWA: Time-weighted average exposure limit
- VOC: Volatile organic Compounds
- vPvB: Very Persistent and very Bioaccumulative as for REACH Regulation
- WGK: Water hazard classes (German).

Note for user:

The information contained in the present sheet are based on our own knowledge on the date of the last version. Users must verify the suitability and thoroughness of provided information according to each specific use of the product.

This document must not be regarded as a guarantee on any specific product property.

The use of this product is not subject to our direct control; therefore, users must, under their own responsibility, comply with the current health and safety laws and regulations. The producer is relieved from any liability arising from improper uses.

Provide appointed staff with adequate training on how to use chemical products.
